About the Book

A Polemic Journey into the Past

Ancient West African Women is a short, crisp book which systematically explains how women in ancient West African tribes migrated from the Nile Valley in Egypt westwards to an area south of the Sahara, which we now know as West Africa. The book also polemically explores the lasting impact of chattel slave trading, colonization, Christianization and Islamization on the standing of West African women.

In this book we discover the shifting fortunes of women, as ancient African cultures encounter the encroaching world and these strong pillars of African society became TOPPLED CORNERSTONES!
